

STATE STREET WATERLINE

1st Ave to 200 North

Project Overview

Salt Lake City Public Utilities will replace the existing water main on State Street between 200 North and 1st Avenue in Salt Lake City. This key public utility is over 100 years old and needs to be replaced to enhance the infrastructure for downtown growth. Crews will also be performing sewer line work on 200 N and Hillside Ave., from State Street to Main Street.

Work will include installation of new water lines, replacement of existing residential water meters, and sewer rehabilitation work. **These efforts will require significant impacts to nearby residents, businesses, and the traveling public.**

Schedule

Construction Start: April 25th

Anticipated Substantial Completion: late summer 2022
